Maternity Session

\$125.00

(includes \$50 print credit)

The maternity session should be scheduled during the 30th-36th week of pregnancy. This ensures your baby belly will be big enough to show off in photo's, but you will not be uncomfortable during the session.

Mommy can bring Daddy as well as future siblings for fun and to capture other precious moments!

Newborn Session

\$125.00

(includes \$50 print credit)

*This is not your typical newborn session like chain stores such as Wal-Mart. These sessions can last up to 1 1/2 -2 hours! Newborn sessions should be scheduled as soon as possible! Being a parent myself I know how hard it can be to pack up a brand new baby to go on a trip anywhere. This session should be scheduled when the newborn is **under 10 day's old**. This is the perfect time to get some beautiful sleeping baby poses.*

Belly to Baby Session

(Covers newborn and maternity session)

\$200.00

(includes \$50 print credit)

The one time session fee is due at the time of the maternity session.

We also offer gift certificates for these sessions! This would make a perfect baby shower gift, just the right gift to make mommy-to-be smile!

Taxes NOT included
