Our Canvas Gallery Wraps are printed onto Inkjet Canvas and are wrapped around 1.75" thick wooden stretchers. To ensure the best quality and longevity, they are printed on Hahnemühle Monet Canvas. There are many less expensive Canvas materials out there, but our lab has not found any other materials that approach the quality of Monet Canvas. Our lab has calibrated and custom-profiled the Monet Canvas to their printers. Also our lab is using HP Vivera Inks for the best possible colour. Inkjet Canvas is liquid laminated (up to 20x30) or sprayed (larger Gallery Wraps) after printing to prevent fading and to protect the image.
